

USABILITY TESTING PROTOCOL

1 Scope of test

The scope of this usability test is to evaluate the ease of navigation, user interaction, and overall user experience on the Luaka Bop website. The test will focus on common tasks that users perform, such as discovering new music, finding artist information, and navigating the online store.

2 Recruit 5 users

We will recruit 5 users who meet the following criteria:

- Age: 18–40
- Familiar with music streaming or browsing music content online
- Experience with similar websites (e.g., music labels, streaming services)
- A mix of technical and non-technical backgrounds to ensure diverse feedback

3 Objectives

The main objectives of this usability test are:

- To identify areas where users struggle to navigate the website.
- To assess how intuitive the website is for first-time visitors.
- To verify that the site structure helps users efficiently find the content they are looking for (e.g., new releases, artist pages, or events).

What are we proving?

- Proving that users can accomplish key tasks (e.g., finding an album or creating a playlist) efficiently without confusion.

4 Metrics

We will use the following metrics to measure the success of the test:

- Task Completion Rate: Percentage of tasks that users can complete successfully.
- Time on Task: How long it takes users to complete key tasks.
- Error Rate: Number of errors made during task completion.
- User Satisfaction: A post-test survey (1–5 scale) asking users how satisfied they were with the website.
- Navigation Efficiency: How easily users can find information without needing assistance.

5 Steps and Instructions

Test Scenario:

Participants will be given a series of tasks to perform on the website. They will be asked to navigate through the website, complete specific actions, and provide feedback at the end.

Tasks:

1. Find and play the latest album from [Artist Name].
2. Locate the biography of [Artist Name] and read about their career.
3. Search for upcoming concerts in [City].
4. Add a song to your playlist (if applicable).
5. Navigate to the online store and select an item to purchase.

Instructions:

- We will record the screen and audio during the session.
- Participants are encouraged to think out loud, sharing their thoughts and reactions as they complete each task.
- If the user encounters any difficulties, they should continue to attempt the task without assistance unless they are completely stuck.

6 Introduction

Hello, thank you for participating in our usability test today. This test will help us understand how easy or difficult it is to use the Luaka Bop website and improve the experience for users like yourself. Please feel free to speak your thoughts aloud as you navigate through the tasks I'll be giving you. There are no right or wrong answers, and we're here to test the website, not you. Let's begin!

7 Conclusion

Thank you for taking the time to help us today, your feedback is incredibly valuable and will help us make Luaka Bop a better experience for everyone. If you have any additional comments or questions, please feel free to share them now or reach out later. Thanks again!
